

Company Profile

Authorized Software Reseller

Genuine, officially-sourced design & engineering software licenses for architecture firms, design studios and engineering companies worldwide.

WYOMING-REGISTERED LLC

B2B SOFTWARE LICENSING

WORLDWIDE DELIVERY

WHO WE ARE

About Softrium

Softrium LLC is a Wyoming-registered, B2B software licensing company dedicated to supplying genuine, officially-sourced design and engineering software to professional firms worldwide. We exist to solve a problem that slows firms down every procurement cycle: legitimate, audit-ready software licenses are essential, yet navigating vendor programs, foreign currency and complex procurement processes can be time-consuming and opaque.

Softrium handles that complexity entirely, so our clients can stay focused on their work — not on chasing approvals, decoding vendor portals or worrying about compliance. Every license we supply is official, registered to the client's firm, and fully traceable from source to delivery.

Our Mission

Make legitimate, professional-grade software licensing simple, transparent and accessible for design and engineering firms everywhere — without the friction or uncertainty that typically comes with it.

Our Model

Softrium operates as a zero-inventory software licensing and reseller service — sourcing directly through official vendor channels and provisioning licenses registered straight to the client's firm. No middlemen, no inflated stock.

- i Softrium LLC is legally registered in Wyoming, United States, and serves clients across the USA, UK, UAE, Saudi Arabia, Pakistan and worldwide.

WHAT WE SUPPLY

Our Software Portfolio

Softrium offers licenses for industry-leading platforms trusted by architects, visualization artists, designers and engineers worldwide. Each product is sourced through official vendor channels, ensuring clients receive fully genuine, vendor-registered licenses. Additional vendor partnerships — including Autodesk, Adobe and Microsoft — are in application and will be added as they are confirmed.

Chaos — V-Ray & Corona

Industry-standard rendering trusted by architects and visualization artists on projects worldwide. Photoreal output with precise control over lighting, materials and environment.

RENDERING

VISUALIZATION

Rhino 3D — McNeel

Precision 3D modeling built for designers, architects and engineers who need accuracy at every scale — complex geometry with no compromise on detail.

3D MODELING

PRECISION

Lumion — Real-Time

Real-time architectural rendering that turns 3D models into client-ready visuals in minutes, not days — the fastest path to a presentation-quality render.

REAL-TIME

PRESENTATION

Coming soon: Autodesk, Adobe and Microsoft — vendor partnership applications are currently in progress.

BUILT FOR PROFESSIONALS

Who We Serve

Softrium's services are built for professional firms in the architecture, design and engineering sectors — worldwide. Whether the need is a single specialist seat or a full studio rollout, Softrium provides the right licensing structure for the work being done and the compliance requirements that come with it.

Architecture Firms

Modeling, visualization and rendering tools that carry a concept from sketch to client-winning presentation — fully licensed and compliant throughout.

- Rendering with V-Ray & Lumion
- Precision modeling with Rhino 3D
- Audit-ready license records

Design Studios

Creative and rendering software that lets studios deliver photoreal visuals on tight deadlines without cutting corners on compliance.

- Scalable seat licensing
- Deadline-ready rendering tools
- Simple renewal management

Engineering Companies

Precise modeling and simulation tools that support dependable, accurate engineering workflows — backed by traceable, officially registered documentation.

- Precision geometry with Rhino 3D
- Tender-ready license documentation
- Trusted vendor chain

OUR DIFFERENCE

Why Work With Softrium

For professional firms, software procurement carries real consequences — compliance risk, wasted time and budget uncertainty are common frustrations. Softrium was built to eliminate each of these friction points with a straightforward, client-centered approach grounded in transparency and genuine service.

— Genuine, Traceable Licenses

Every license is official and registered directly to the client's firm — fully compliant and ready for any audit, client requirement or tender submission. The paper trail is clean from day one.

— Honest, Transparent Pricing

Softrium sources directly through official vendor channels and presents pricing clearly, with no inflated stock markups and no hidden fees. What is quoted is what is charged.

— Real, Responsive Support

From the first quote through installation and renewal, clients deal directly with a team that understands the tools and actually responds — no generic ticketing.

— Built Around Your Workflow

Whether a studio needs a single specialist seat or licenses for a thirty-person team across products, Softrium tailors the right mix of titles, seats and terms.

THE PROCESS

How It Works

Softrium's procurement process is intentionally straightforward. From the first conversation to a fully provisioned, registered license, the entire process is designed to be clear, fast and friction-free — typically completing within one to two business days from confirmed approval.

01

Tell Us Your Needs

Software title, seat count and licensing term.

02

Get a Quote

A clear, official quote — typically within one business day.

03

Confirm & License

Licenses provisioned and registered to your firm.

04

Ongoing Support

Renewals, upgrades and help whenever you need it.

Typical Turnaround

Quote delivered within one business day. Most orders complete within one to two business days of sign-off.

Licensing Terms

Softrium supports annual and multi-year licensing terms depending on vendor program availability, tailored to the firm's needs.
